ONE SET

TAP

TAP DRILL

CLEARANCE DRILL

#237 Coupler Trip Pin Pliers

#237 For HO, HOn3, S, On3 & O Scale Couplers. Adjust trip pin to the correct height by gently squeezing with these specially designed pliers. The pliers have jaw surfaces that are curved and smooth. Adjusting the height of your Coupler Trip Pins is easier because the pliers surfaces conform to the bend of the trip pins and prevent them from kinking when bending or straightening.

TO BEND DOWN

TO BEND UP

#239 5 Prong "Gripper"

#239 For handling small parts. This tool can help with difficult modeling chores. 5-prongs for grabbing, picking, pulling, lifting, and placing those small, difficult-to-grasp items.

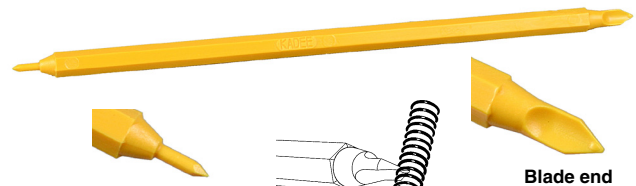

#240 Pin Vise

#240 Double headed Pin Vise with two reversible collets. Used for tapping and drilling.

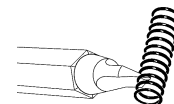

#241 "Dual Tool"

#241 Manual uncoupling tool & Spring Pic "Dual TOOL".

Pointed end

Use the pointed end for manually uncoupling the shelf coupler.

Blade end has a built in spring pic

Blade end
Use the blade end for manually uncoupling "scale" & standard couplers.

#1020 Coupler and Special Purpose Tweezers

#1020 These tweezers are specially designed to hold Kadee® coupler shanks for easy installation of couplers and springs into draft gear boxes. Also great for many other uses around the layout.
