The Coupler People®

November 2022

New Products, News,

and Information...

Made & Assembled Entirely in the U.S.A.

Yes, we are releasing a Christmas car this year; it was just behind schedule. Limited quantity.

Upcoming shows we will be attending.

We will be at Trainfest this year on November 12th & 13th at the Wisconsin State Fair Park in Milwaukee, WI.

We also will be attending our local railroad show. Rogue Valley Railroad Show November 26th & 27th at the Jackson County Expo Central Point, OR.

We look forward to being back at both of these great shows after they were postponed due to COVID restrictions last year. It feels good getting out there, socializing, and enjoying life again. If you have not had the chance to talk to us in person, we invite everyone to visit us in our booth at either show. Come check out what you have missed over the last couple of years. If you have not had the chance to talk to us in person, I will attend booth shows to answer your product and coupler conversion questions.

We will be giving a Product Overview, Questions and Answers presentation in our booth at Trainfest to help anyone who is just getting their feet wet or has questions about Kadee Couplers and our product lines. We want to ensure everyone gets accurate information on proper coupler mounting and conversion techniques. Hopefully, everyone will walk away with a new understanding of how to mount couplers correctly. Hence, you get the optimum trouble-free performance out of your next car that gets converted to Kadee couplers or trucks.

Make sure you stop by and talk to Travis at our local show. He loves to get feedback to improve your experience with Kadee products.

"Making the Hobby Great Again"

November 2022 New Rolling Stock!

Kadee® prides itself in creating and manufacturing premium "RTR" rolling stock as close to scale & detail as possible. Model railroaders can expect only the best quality & craftsmanship with every Kadee® quality product. Nothing stacks up to the accuracy, detail, quality, & authenticity of Kadee® Cars over all other "RTR" cars on the market.
