Use this chart to help determine how many spikes you will need

Kadee® Twin

RAIL SPIKER SPIKES PER FOOT CHART

This chart will help you determine how many spikes you will need.

PROTOTYPE	1 mile 5,280 feet ties laid on 21 inch centers = 3,017 ties per mile
-----------	--

HO-SCALE:	.138" = 1 scale foot 1 scale mile 60.62 feet with ties on .242-inch centers: (scale 21") = 50 ties per foot = 200 spikes per foot 1 box (4,000) will spike 20 feet*
-----------	--

*Both rails, 4 spikes to a tie. Footage based on spiking every tie - if spiking every other tie - multiply feet by two, or every fourth tie - multiply by four

twin "Rail Spiker"

Replacement parts are available directly from Kadee only.
