

TRU-SCALE

No.5® COUPLER CONVERSION

1. Remove trucks, coupler screws, lids and couplers. Save screws and lids.
2. Remove any ridges or fins on inside of the Tru-Scale draft gear box, sides should be flat and smooth.
3. Insert No.5® Coupler with Centering Spring on top into draft gear box. Replace coupler lid and secure with Tru-Scale screw.
4. Check for correct coupler height, function, and clearance and make any adjustments necessary.
